

Advancing Innovations in Learning and Living

EXECUTIVE SUMMARY

Overarching Vision for the College Strategic Plan

- To become the nation's top-tier, public College of Education and Human Ecology for undergraduate and graduate study.
- To integrate and utilize the creative energy and expertise of faculty, staff, students, centers and other partners, and to direct that expertise and effort to resolving pressing social, educational, and health/wellness needs locally, nationally and internationally.

STRATEGIC GOALS:

GOAL 1: Target Top Quality: Recruit the Best Students and Promote Their Success

- Build and Sustain Superior Graduate Programs
- Enroll and Educate Exceptional Undergraduates, and Enhance the Undergraduate Educational Experience

GOAL 2: Accelerate to Full Potential: Build an Extraordinary Faculty

- Attract and Hire High-Quality Faculty
- Support Faculty Development in 21st Century Skills
- Leverage Faculty Expertise Across Department and School Lines to Enhance Curricula and Learning Experiences

GOAL 3: Conduct Rigorous Research and Scholarship to Advance the Quality of Life: Enhance the Future for Individuals, Families, Schools, Higher Education and Communities

- Establish G3 – Gateway to Graduation and Globalization, an urban schools research and intervention consortium
- Develop Signature Programs of Excellence

GOAL 4: Come Together: In Concert with All Constituencies

- Facilitate Faculty and Staff Collaboration
- Establish and Promote Our College Identity
- Expand the Sphere of Influence of the College on Campus and Beyond
- Build Infrastructure for the College Office of Research
