

# Department of Consumer Sciences

## Consumer and Family Financial Services

## Internships

### Preparation for Jobs

Through an internship students can gain practical experience, enhance employment marketability, apply concepts, techniques, and theories covered in classes, and have opportunities for networking contacts and mentoring relationships.

Internships are required of those students in the Consumer Financial Planning Track and highly encouraged for all other CFFS majors.

The Department Advising and Career Development Center offers the following resources

- Individual advising and career services
- Assistance with resume writing and job searches
- Career/Internship Resource Center
  - Computers for internship research
  - Career-related books
  - Previous Internship Supervisor Contact Information
