

Department of Consumer Sciences Student Profile

Kimberly Chung

Textiles and Clothing, 2009

Advice for Students...

- Do as many internships as possible and do a variety of internships
- Get involved with organizations, it's a great way to network
- Go to the guest speaker events on campus, even if you don't want to, it is worth it to meet different people in the industry

Q What class have you enjoyed the most so far?

The Retail Environments course, because I want to do visual merchandising and it is more hands on.

Q Have you completed an internship?

Yes, a couple. One was with Tarte Cosmetics in New York doing PR and product development. I wanted to work with them because of their eco friendly brand. I also completed a Management internship with Kohls. I met them at a Career Fair, they were very professional; the interview process was intense, but worth it.

Q What classes at OSU were helpful to you in your internship?

CS TXTCL 275 and 525 and my Communication minor courses.

Q Have you been involved with any student orgs or other orgs?

Yes, I am a member of the Fashion Student Organization, and Big Brothers/Big Sisters. The FSO is a great way to hear different individuals in the industry speak about their experiences.

Q What are your plans after graduation?

I have accepted a MIT position with Kohls. Eventually, I would like to live in CA or NY and do Visuals.
