The education minor is designed to provide foundational knowledge about education within the larger social context and to offer a cross-disciplinary examination of the intersections of education, culture, and society. Students choosing to minor in education may wish to explore education as a possible career choice or they may be interested in studying current issues in the field as well as learning more about schools and schooling in today's society.

The education minor requires at least 15 credit hours. All students completing the minor must take one course from at least five of the seven categories listed. At least 6 credits need to be taken at the 3000-level or above.

Students who plan to complete the minor should meet with an academic advisor in the College of Education and Human Ecology to fill out the Minor Program Form, then submit the approved form to their college of record. Any variation in the minor requires written approval from the coordinating advisor in the College of Education and Human Ecology. For further information about the minor program, contact the College of Education and Human Ecology.

Critical Issues in Education. Students examine legal, ethical, interpersonal, and community issues that impact education.
