Ohio Educator Preparation Provider Performance Report Ohio State University

Institution Profile

(Data Source: Ohio State University)

The Ohio State University

Educator Preparation

The Ohio State University Educator Preparation Unit is made up of five colleges, six campuses and more than 50 programs that include initial licenses and professional licenses.

Report Overview

The Ohio Department of Higher Education gathers data annually from multiple sources to report the following performance metrics in the Educator Preparation Provider Performance Reports:

- Ohio Teacher Evaluation System Results for Ohio Teachers Prepared by an Ohio Educator Preparation Provider
- Ohio Principal Evaluation System Results for for Ohio Principals Prepared by an Ohio Educator Preparation Provider
- Field and Clinical Experiences Required by Ohio Educator Preparation Provider Candidates
- Licensure Test Results for Ohio Educator Preparation Provider Program Completers
- Value-added Data for K-12 Students Taught by Ohio Teachers Prepared by an Ohio Educator Preparation Provider
- Demographic Information for Schools in Which Ohio Educator Preparation Provider-Prepared Teachers with Value-Added Data Serve
- Academic Measures Used to Inform Admissions Decisions at Ohio Educator Preparation Provider Programs
- Survey Results of Pre-Service Teacher Candidates Enrolled in Ohio Educator Preparation Provider Programs
- Survey Results of Ohio Resident Educators Who Were Prepared by Ohio Educator Preparation Providers
- Survey Results of Ohio Principal Interns Enrolled in Ohio Educator Preparation Provider Programs
- Survey Results of Mentors Serving Principal Interns Enrolled in Ohio Educator Preparation Provider Programs
- Ohio Educator Preparation Provider National Accreditation Status
- Persistence in the Ohio Resident Educator Program of Teachers Who Were Prepared by Ohio Educator Preparation Providers
- Ohio Educator Preparation Provider Excellence and Innovation Initiatives

Ohio Educator Preparation Provider Performance Report Ohio State University

Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared by an Ohio Educator Preparation Provider at Ohio State University

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio Department of Education)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

- 1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
- 2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
- 3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

	Associated Teacher Evaluation Classifications						
Initial Licensure Effective Year							
2016	54	51	N<10	N<10			
2017	47	60	12	N<10			
2018	28	65	10	N<10			
2019	17	54	10	N<10			

Ohio Educator Preparation Provider Performance Report Ohio State University

Ohio Principal Evaluation System (OPES) Results for Individuals Completing Principal Preparation Programs at Ohio State University

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio Department of Education)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

2018	N<10	N<10	N<10	N<10			
2019	N<10	N<10	N<10	N<10			

Ohio Educator Preparation Provider Performance Report Ohio State University

Field and Clinical Experiences for Candidates at Ohio State University

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio State University)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs					
Field/Clinical Experience Element	Requirements				
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	Y				
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	100				
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	510				
Average number of weeks required to teach full-time within the student teaching experience at the institution	14				
Percentage of teacher candidates who satisfactorily completed student teaching	98.25%				

Principal Preparation Programs					
Field/Clinical Experience Element	Requirements				
Total number of field/clinical weeks required of principal candidates in internship	26				
Number of candidates who started internship	26				
Number of candidates who completed internship	26				
Percentage of principal candidates who satisfactorily completed internship	100%				

Ohio Educator Preparation Provider Performance Report Ohio State University

Ohio Educator Licensure Examination Pass Rates at Ohio State University

Reporting Period from Sept 1, 2018 to Aug 31, 2019 (Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses. Further, because the data are gathered from the Title II reports, there is a one-year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2019-2020.

As of 2013, the Ohio Assessments for Educators replaced the Praxis subject assessments for initial licensure. Some Praxis II assessments are still being reported because recent program completers took those tests in or before 2013.

Teacher Licensure Tests					
Summary Rating: EFFECTIVE					
Completers Tested Pass Rate					
397 98%					

Ohio Principal Licensure Examination Pass Rates at Ohio State University

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio State University)

Description of Data:

Ohio requires that principal candidates pass the requisite state examination to be recommended for licensure. The 2019-2020 program completer pass rates are reported by each Ohio educator preparation provider.

Principal Licensure Tests				
Completers Tested Pass Rate				
N<10	N/A			

Ohio Educator Preparation Provider Performance Report Ohio State University

Value-Added Data for Students Taught by Teachers Prepared by Ohio Educator Preparation Providers at Ohio State University

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

- 1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
- 2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
- 3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

Ohio Educator Preparation Provider Performance Report Ohio State University

Ohio State University Candidate Academic Measures

(Data Source:Ohio State University)
Reporting Period from Sept 1, 2019 to Aug 31, 2020

Undergraduate Admission Requirements

EPP UG requirements are 1) application with letter of recommendation, GPA, and disposition form (with BCII/FBI checks and fingerprinting) and 2) completion of coursework. All applications are screened using unit and program rubrics/criteria. Applicants include a piece of writing with criteria established by each program/campus. Some programs interview and/or require content-specific GPA or specific grades in courses. SAT and ACT scores may be considered.

Post-Baccalaureate Admission Requirements

EPP PB requirements are 1) application with letter of recommendation, GPA, and disposition form (BCII/FBI checks and fingerprinting) and 2) coursework. All applications are screened using unit and program rubrics/criteria. Applicants include a piece of writing with criteria established by each program/campus. Some programs interview and/or require content-specific GPA, portfolios or specific grades in courses. SAT, ACT and GRE scores may be considered

Graduate Admission Requirements

EPP graduate requirements are 1) application with letter of recommendation, GPA, and disposition form (BCII/FBI checks and fingerprinting) and 2) coursework. All applications are screened using unit and program rubrics/criteria. Applicants include a piece of writing with criteria established by each program/campus. Some programs interview and/or require content-specific GPA, portfolios or specific grades in courses. SAT, ACT and GRE scores may be considered.

Description of Data:

The data in this section are the average scores of candidates on academic measures reported by the provider. If a measure is not applicable to a level of delivery (undergraduate, post-baccalaureate, graduate) the table reflects "N/A." In the "Dispositional Assessments and Other Measures" portion, if the provider did not indicate using a measure, OR if the institution does not offer a program at the designated level of delivery, the table reflects "N."

Candidates Admitted is the number admitted (for fall or spring) during the academic year.

Candidates Enrolled is the total number of candidates admitted and enrolled (including program completers) during the academic year.

Candidates Completing is the number meeting all the requirements of a state-approved teacher preparation program during the academic year.

Ohio Educator Preparation Provider Performance Report Ohio State University

Pre-Service Teacher Survey Results

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Due to the COVID-19 pandemic-related issues, including school closures and staff transitions in Ohio during the 2019-2020 school year, the distributions of some surveys were delayed, contributing to lower response rates.

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio candidates receive an invitation to complete the survey during their professional internship (student teaching). The results of this survey are reflected here. A total of 2,903 respondents completed the survey statewide for a response rate of 68 percent.

Ohio State University Survey Response Rate = 46.17% Total Survey Responses = 211

Statewide Survey of Ohio Resident Educators' Reflections on their Educator Preparation Program

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Due to the COVID-19 pandemic-related issues, including school closures and staff transitions in Ohio during the 2019-2020 school year, the distributions of some surveys were delayed, contributing to lower response rates.

To gather information on alumni satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio Resident Educators who completed their preparation in Ohio receive an invitation to complete the survey in the fall semester as they enter Year 2 of the Resident Educator program. A total of 453 respondents completed the survey statewide for a response rate of 12 percent.

National Accreditation Status

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio Department of Higher Education)

Description of Data:

All educator preparation programs (EPPs) in Ohio are required to be accredited by either the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC), or their successor agency, the Council for Accreditation of Educator Preparation (CAEP). Accreditation is a mechanism to ensure the quality of an institution and its programs. The accreditation of an institution and/or program helps employers evaluate the professional preparation of job applicants.

Accrediting Agency	CAEP
Date of Last Review	Dec-18
Accreditation Status	Accredited

Ohio Educator Preparation Provider Performance Report Ohio State University

Teacher Residency Program

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio State University)

Description of Data:

The Resident Educator Program in Ohio encompasses a robust four-year teacher development system. The data below show the persistence of Ohio Educator Preparation Provider graduates through the program.

Data from this table capture a year-to-year snapshot of the persistence of Ohio Educator Preparation Provider graduates through the program. Corrections to prior year reporting may be captured in the current year's reporting. Data used to create this "snapshot" table are sourced not only from the current year's resident educator completion data results, but also prior year results because a Resident Educator may fail to complete all the program year requirements within the same academic year.

Some of the scenarios addressed in the design of the table are as follows:

- 1. A normal scenario, where a student is reported each year and is listed as completed. In this case, we include them in only the Entering/Persisting counts for the current year.
- 2. A scenario where a student is reported as entering one year, but not as completed, but then reported the following year as completing the previous year and current year. In this case, we include them in the Persisting count for the previous year, but not the Entering count. We also include them in the Entering and Persisting counts for the current year.
- 3. A scenario where a student is not reported one year, but reported with records for the previous year and the current year the following year (both as completed). In this scenario, we include them in both the Entering and Persisting counts for both years.
- 4. A scenario involving a registration fluke where a student completes Year 1 of the RE program with an issued RE license, but not an effective or valid license until the following school year. For example, a teacher has all the qualifications for a full license, but completed Year 1 under a sub license (in which the work is counted) and Year 2 under a RE license.

Ohio Educator Preparation Provider Performance Report Ohio State University

Excellence and Innovation Initiatives

Reporting Period from Sept 1, 2019 to Aug 31, 2020 (Data Source: Ohio State University)

Description of Data:

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

Teacher Preparation Programs

Initiative:	Urban Preservice Teacher Pipeline Pilot
Purpose:	This partnership focuses on building deeper partnerships between OSU & Columbus City Schools (CCS) including a pipeline of CCS students in teacher education to increase retention of diverse students.
Goal:	This pilot partnership program positions teaching staff at the arts-based high school and middle school as experts while gaining teacher education experience. OSU students can also serve to assist both schools in meeting reading and writing goals.
Number of Participants:	35
Strategy:	This experience sought to increase the diversity of student field experiences to include an urban placement for all students, as well as a more in-depth experience in a middle school setting for AYA 7-12 licensure students. Also, it sought to counter common misconceptions about urban education with examples of high quality and innovative teachers and exposure to the importance of arts integration. The experiences allow OSU students to work with multiple mentor teachers – guided by identified areas of expertise. OSU students delivered small group instruction and/or team taught with mentors utilizing strategies within the instructional framework. They also work with veteran mentors to 1) provide appropriate grade-level instruction to students needing support; 2) prepare best-practice interventions to address skill deficits and actively engage all students; 3) participate in ongoing dialogue with staff to analyze needs and plan focused instruction; 4) promote high levels of achievement in relation to individual abilities; 5) evaluate/maintain accurate records of student performance/progress; 6) build motivation/interest in reading; and 7) reflect on progress/make connections to text
Demonstration of Impact:	This was a pilot program and data outcomes are still being gathered. The impact of this urban teaching placement will be examined via key assessments in planning and instruction during Autumn 2020 as students work to implement learning during more extensive field experiences.
Programs:	All AYA 7-12 licensure programs

Initiative:	Preservice Professional	Development Series

Purpose: Provide preservice teacher candidates with a professional development series to meet PD hour

requirements for SPA assessments and enhance understanding of teaching and learning.

Goal: Assist preservice teachers in meeting professional development hours by providing free, high-quality professional development that assists in expanding their understanding of teaching and learning.

Number of Participants:

Strategy: The Equity and Diversity Educator Conference highlighted the experiences and strategies of emerging

and veteran educators identified as exemplary in advancing equity and diversity in the classroom. Twenty-nine presenters from nine central Ohio districts, including public and charter schools, presented four workshops and 16 break-out sessions focused on differentiating instruction and how to plan and delivery appropriate instruction for diverse groups of students. The one-day conference was free and attended by 105 preservice teachers who were student teaching in 2019-2020. A call for proposals was sent to select alumni and mentor teachers who had been identified as leaders in this area. Proposals were double blind reviewed by a selection committee and the program finalized to balance offerings and areas of expertise. Feedback was collected from presenters and participants. It focused on each area of the conference (keynote address, workshops, breakout sessions, registration, etc.) and was

Ohio Educator Preparation Provider Performance Report Ohio State University

overwhelmingly positive. Students identified their key learning from each session and reflected on their participation and the impact the new learning would have on their classrooms.

Demonstration of Impact:

The impact of the conference for the surveys mentioned above is an unknown at this time. As previously stated, the specific line items in each of the three surveys related to the themes of the conference will be tracked. Positive feedback received from stakeholders, the day of the event, demonstrated the power and impact the conference had on the student teachers' understanding of classroom strategies that can be used to differentiate and to plan and instruct for diverse groups of learners.

Programs: All initial licensure programs in the EHE Department of Teaching and Learning

Principal Preparation Programs

Initiative: Principal Preparation On-Boarding Support

Purpose: Strengthen the on-boarding support for principal licensure candidates completing the program and are

seeking/moving into administrative roles.

Goal: Initiate a mentoring program for new principal licensure program graduates, pairing them up with past

program graduates who are successfully working in administrative positions. The planning process will

take place during 2020-21 with a goal of implementation in 2021-22.

Number of Participants: 10

Strategy: Identify principal licensure program completers who are working in administrative positions who are

willing to serve as a mentor/support for program graduates who complete the program and are seeking an administrative position or have recently secured one. Specific criteria to determine success in the

new administrative position will be established to ensure high-quality mentorship.

Demonstration of Impact: The program is in the planning stages and will be implemented in the 2021-22 school year. Data will be

available at that time.

External Recognition: Consideration of recognition can occur once implemented.

Initiative: COVID-19 Reopening Task Force Planning Support

Purpose: Support K-12 administrators as they responded to the impact of COVID-19 on school programming by

utilizing the administrative expertise of the OSU Educational Leadership programs.

Goal: Provide resources to K-12 schools to assist in their development of COVID-19 reopening plans

Strategy: The pandemic has resulted in our schools grappling with equal educational access, care for student

well-being and social justice. University faculty with expertise in areas of school operations from the Educational Administration programs established a K-12 Reopening Task Force to provide feedback and expertise to school districts as they developed plans to reopen K-12 schools after a March 2020 statewide shutdown of in-person learning. The College partnered with K-12 teachers and administrators throughout the summer and fall to share best practice strategies for educators to use in their schools and classrooms. To date, the following topics have been addressed: student well-being; student motivation; teacher well-being; assessment; English language learners; and physical education, music and art. A public website curated K-12 school resources and provided widespread access to the

information.

Demonstration of Impact: Feedback was used in area schools' reopening plans.
