INTRODUCTION

Introduction to Practicum, Internship, and Supervision

This manual provides general information for supervisors of the practicum and internship field experiences in the Master of Arts Degree Program in School Counseling. Therefore, please keep this manual in an easily accessible location so you can refer to it before and during supervision.

As you will recall from your own professional training, the purpose of field experiences is to provide students with school counseling practice while they are learning how to become effective school counselors. Field experiences provide school counseling students with opportunities to practice individual and small group counseling skills, consultation, collaboration and teaming, advocacy, and leadership skills taught in the weekly classes attached to the field experiences. Thus, students practice counseling, consultation, collaboration, advocacy, and leadership skills as they progress from practicum through the internship courses.

Both practicum and internship involve actual on-site, school counseling experience. However, they differ in length and purpose. Practicum provides students with experience in individual counseling and group counseling, conducted in the context of 10 weeks of spring semester and scheduled for 10 to 15 hours per week. In contrast, internship offers students practice not only in counseling but also in all aspects of professional functioning including consultation, collaboration, leadership, advocacy, and coordination of community resources. For one year or two semesters (Autumn and Spring), this experience requires 20 hours per week on site for the entire school year. See the summary on page 5 for an overview.

Types of Supervision

There are several types of supervision: administrative, involving giving the student feedback about professional behaviors, attendance, dress, demeanor, and specific tasks within the building; clinical, involving listening to tapes or sitting in sessions and providing feedback to the student about his/her clinical counseling skills; and programmatic, involving giving the student feedback about how to create and manage a professional school counseling function within the school. As you can see from the evaluation form in Appendix B 4, as the site supervisor, you are
asked to reflect on what you have observed in the student in all three of these areas, and hopefully, you will be in a position to observe the student in all three areas.

**The Supervisory Team**

There are a number of professionals who work together to provide supervision for students. On-site supervisors provide administrative supervision, programmatic supervision, and often, clinical supervision. Doctoral student supervisors provide clinical and programmatic supervision in both individual and group formats. Faculty members provide clinical and programmatic supervision in general, and may supervise in individual and group formats as needed. Faculty supervise all practicum and intern students, and in the program, students receive individual, group, and site supervision. In addition, the faculty and doctoral students meet weekly for supervision-of-supervision in which the progress of all students is discussed and challenges/strengths of each student is conceptualized. Site supervisors are invited and strongly encouraged to attend the meeting(s) in which their supervisees will be staffed. Contact the School Counseling program coordinator, Dr. Colette Dollarhide, to discuss attending these meetings.

As you can see on the following page, hours for supervision are specified.
### SUMMARY OF PRACTICUM AND INTERNSHIP REQUIREMENTS

Benefits of Supervision

There are numerous benefits of supervision, including:

- Contributes to the profession by training new professionals
- Invigorates your work by re-experiencing the joy of learning
- Provides you with well-trained colleagues
- Enhances your connection with OSU’s training program
- May count toward certification renewal (subject to Department of Education policies)
- May provide tuition credit toward coursework at OSU (subject to OSU policies)

Requirements for Supervisors (CACREP 2016 requirements)

- Site supervisors have (1) a minimum of a master’s degree, preferably in counseling, or a related profession; (2) relevant certifications and/or licenses; (3) a minimum of two years of pertinent professional experience in the specialty area in which the student is enrolled; (4) knowledge of the program’s expectations, requirements, and evaluation procedures for students; and (5) relevant training in counseling supervision.
- * OSU requirement: Active/involved with professional associations (ACA, ASCA, OSCA, OCA)

Site Requirements (OSU requirements):

- Comprehensive developmental program (ASCA National Model)
- Appropriate space for counseling (confidentiality)
- Ability/equipment to audiotape or videotape for supervision
- Diverse student population
- Opportunities for leadership within the school

Expectations of Supervisors

While there are many benefits of being a supervisor, there are also important tasks that we ask of supervisors. These are:

- Provide orientation, structure, and direction to student activities on site.
- Assist student in gaining parental permissions.
- Assist student in locating counselees and group members.
- Weekly meetings with student on site and weekly review of tapes or in-vivo supervision.
- Feedback to student about both clinical and administrative skills.
- Written feedback at midterm (w/student) and final (student and faculty).
- Possible visit(s) with faculty to discuss student progress.
The Process for Application and Approval as a Supervisor

Appendix A contains the application form. Fill out the application form and send it to the Counselor Education faculty at the address on the top of the form. Please note that your principal’s signature is also requested.

The OSU Faculty will review all applications and we will notify you via email of your status. The placement of students is arranged by the faculty of the program who will contact you to determine if a placement is appropriate.

ACCREDITATION DATA COLLECTION FOR EACH CANDIDATE

The Council for Accreditation of Counseling and Related Educational Programs,

www.cacrep.org

Because The Ohio State University is an NCATE-accredited institution, data is collected about and from each candidate in all programs culminating in licensure for education. In addition, the Counselor Education program is seeking accreditation from CACREP, and so follows the standards for the profession of counseling. For each school counseling student, data is collected throughout the program during coursework, at the end of practicum, at the end of internship, and then after graduation. At the end of the student’s field experience with you, you will be prompted by email when to complete the on-line rubric about the student’s skills. Your timely completion of these instruments is critical and greatly appreciated.

CAEP

Another national organization that accredits colleges of education, CAEP may also request information about our placements. The program faculty will contact you if any additional information is needed.
GENERAL INFORMATION ABOUT SUPERVISION

Ethical Supervision

According to the Association for Counselor Education and Supervision (ACES), training in supervision is mandatory. The Counselor Education program offers such training. If you have not had a course in supervision, you can obtain resources to assist you in learning about this important skill. Resources for your development in supervision are offered at the end of this handbook.

Supervision Style

There are a number of models that demonstrate how to conduct supervision. Many contemporary models are listed in Appendix C, Supervision Resources. One model provides a useful template for thinking about the roles we take during supervision, and the issues or focal points of supervision. A summary of Nelson and Johnson’s (1999) theory and a matrix for using their approach are offered here.

ROLES and ISSUES of SUPERVISION

A Summary of Nelson & Johnson, 1999

There are four roles that supervisors can adopt, depending on the situation and the style of the supervisor:

4 ROLES OF SUPERVISORS:

1. Teacher: providing instruction, best using GUIDED DISCOVERY
2. Evaluator: providing feedback
3. Counselor: addressing personal issues that impair performance
4. Consultant: providing expert opinions as a colleague

Developmental progression moves from Teacher  Counselor  Consultant
And from Evaluator  Colleague

(Note: Director of Guidance position includes evaluation of others as part of professional duties.)
In addition to the 4 Roles, there are 4 skill clusters, or issues, that supervisors focus on during supervision, which are summarized below:

4 FOCAL POINTS / ISSUES OF SUPERVISION:

1. Therapeutic skills: Ability to use therapeutic interventions
   ~ listening, establishing rapport, summarizing, showing empathy

2. Conceptualization skills: Ability to understand the issues of students, families, and schools, and select appropriate interventions
   ~ application of theory to reality, understanding developmental and systemic issues

3. Management skills: Ability to conduct non-counseling professional activities
   ~ design comprehensive school counseling program, design developmental curriculum lessons, behavior management in the classroom, consulting, collaboration with colleagues

4. Personal Issues: Appropriateness for the profession and for school setting
   ~ Respect for young people, ability to function for & with authority

The supervisor uses the Roles within which s/he is most comfortable to address the Issues that are observed in the student’s performance, as outlined on the following page. The point of this matrix is to illustrate that supervisors have tremendous flexibility in the ways they engage the student in supervision; based on your comfort level and the issue you are addressing, you can address any topic of importance during supervision.
<table>
<thead>
<tr>

<td>PERSONAL ISSUES Respect kids Work w/ authority Personal problems</td>
<td>Teach the importance of dealing with personal issues</td>
<td>Give feedback on effect personal issues have on job performance</td>
<td>Counsel about personal issues (In fact, this activity is limited)</td>
<td>Give expert opinion about effect of issues or on methods of dealing with issues; support</td>
</tr>
</tbody>
</table>

This structure can be used to map out an intervention with a student as needed, or to track the progress of the student based on the usual supervision trajectory from using a teaching role to more collegial consultation.
GENERAL INFORMATION ABOUT FIELD EXPERIENCES

Ethical Conduct

School counselor trainees are expected to follow the codes of ethics endorsed by the American Counseling Association (ACA) and the American School Counselor Association (ASCA).

Liability Insurance

Students are required to obtain liability insurance prior to the beginning of practicum and maintain that insurance until the completion of internship.

Professional Behavior

Students are expected to conduct themselves professionally during their work in local schools. Their dress and appearance should reflect a practicing school counseling professional. *No cleavage, sweats, or jeans are permitted.* Further, students must be punctual and respectful of both students and other adults.

Record Keeping

School counselors-in-training must keep accurate records of their activities, during practicum and internship, which the supervisor is asked to sign weekly.

Pre-Field Experience Requirements

Before students can enroll in the practicum experience, students must have completed successfully the following prerequisite courses and have attained no less than a grade point average of 3.0 in the Graduate School:

- 6731 Foundations of Counseling
- 6732 Theories of Professional Counseling
- 6733 Techniques of Individual Counseling
- 6734 Assessment in Counseling
- 6735 Counseling across the Lifespan
- 6736 Lifespan Career Development and Counseling
- 6737 Group Counseling
- 6738 Techniques of Group Counseling
- 6739 Legal and Ethical Issues
All students, including international students, are expected to have achieved satisfactory mastery of the English language to register for practicum and internship.

All students will have completed the required background checks and completed any additional district requirements (i.e., TB test) before placement.

**Overall Expectations for Student Field Experiences**

1. **Observation and Orientation**: The students’ orientation to school procedures and operations is important. Students should observe the on-site supervisors in various functions and also observe other professionals or specialists in the school such as the school psychologist, nurse, and principal. This observation phase should be long enough to orient the student but not so long as to interfere with the experiential quality of the field experience.

2. **Development of Individual and Group Counseling Skills**: School counselors-in-training must have the opportunity to counsel students under supervision. Field experiences support the development of individual and group counseling skills, and supervisors provide the feedback that students need to improve their skills.

3. **Classroom Guidance Skills**: School counselors-in-training are expected to develop units for the developmental curriculum that are delivered via classroom guidance. Since the OSU program stresses reaching all students, competency in classroom guidance is considered vital and mastering the facilitation skills necessary to conduct classroom guidance is an important aspect of the internship.

4. **Consultation Skills**: During internship, school counselors-in-training are expected to provide helpful consultation to teachers, parents, and other colleagues. Areas in which school counselors-in-training can consult with other educators include student achievement, career development, student assessment, and problems students might encounter, such as dealing with divorce in their families, school-based conflicts, and academic and educational decision-making.
5. **Leadership Skills:** School counselors-in-training will be expected to demonstrate leadership during field experiences. This may mean coordinating a program, writing a grant, conducting in-service for the staff, or implementing a new student-oriented program at their schools.

6. **Community Outreach:** Future school counselors must know how to use the available resources in the community to improve student achievement. Specific assignments in practicum and internship classes are designed to encourage students to learn about their communities and its resources. A community mapping assignment in practicum requires students to map the resources around their practicum site so they can begin to understand the importance of reaching out and utilizing community resources in the education of children and adolescents. Community outreach is emphasized throughout the program.

7. **Program Development and Evaluation:** Future school counselors will engage in the development and evaluation of a school counseling program, based on a real school with which they are familiar or a fictitious school provided by their instructor. Students will be also expected to field test or try out some of the activities they are developing for their school counseling program.

8. **Client Population:** All students will be placed in schools with *diverse populations.*

**EVALUATIONS**

Please note that evaluations are an important part of learning for students. We will collect your feedback several times during the placement through the university supervisor and the program. We want to increase the formative feedback that students receive in addition to the summative feedback students get on the rubric that is completed formally at the end of the field placement. Please watch for these contacts and please let us know if you have any questions or concerns about your student.
PRACTICUM

Description of Practicum

Practicum is an arranged, supervised experience of 100 hours of counseling in schools. A practicum is taken for four credit hours per semester. That translates into a minimum of ten on-site hours per week. Students are required to remain in their practicum settings after the semester ends at the university so that they can participate in the end-of-year activities in the school. Individual supervision at the University can be arranged by the student during this additional time in the schools, but this time cannot be counted toward the satisfaction of practicum hours; the student must complete the required hours before the end of the semester.

Students must engage in four hours of individual and group counseling per week while at their sites; the remaining hours should involve duties directly related to school counseling, such as parent/teacher consulting, advocacy, and classroom guidance. Students must audio-tape and video-tape sessions on a regular basis. In addition, they are required to obtain signed informed consent forms from students and their parents or legal guardian.

Students meet with their site supervisors each week for administrative, programmatic, and clinical supervision as needed. In addition, students meet with their University supervisors each week for one hour of individual clinical and programmatic supervision. A caseload of 4-6 cases by the third week is a general guideline for practicum. Individual and small group counseling are emphasized during practicum but students may also have the opportunity to conduct classroom guidance sessions.

Practicum students are required to attend the practicum class for regular group supervision and to discuss other issues that arise at their practicum sites. Reviewing tapes of counseling sessions, role playing, presenting cases, learning about community resources, discussing how to work effectively with diverse cultures, and evaluating relevant legal and ethical issues are examples of seminar activities.

Standards and Performance Indicators Addressed in Practicum

School counselors-in-training are expected to progress toward meeting the program’s learning outcomes or standards, which come from CACREP, the Council for Accreditation of Counseling and Related Educational Programs (2016). It is imperative that both students and
supervisors understand the learning outcomes school counselors-in-training need to master during their field experiences.

Specific standards and performance indicators for practicum are described in Appendix B3. Some standards are introduced in practicum and reinforced in internship while others are introduced in internship and refined throughout the year-long field experience. The performance of students is monitored throughout the program and their field experiences. After students have completed their practicum, on-site supervisors will be asked to complete the evaluation form found in Appendix B 4. Because of the data collection process, the supervisor is asked to input feedback on the evaluation form directly into TK20, the college’s data collection system. You will be contacted via email early in the semester with information related to this request. Supervisors are asked to rate the performance of counselors-in-training on a scale of 0-4 with “4” representing “mastery of the performance indicator as could be expected from an experienced professional”. Students completing practicum must achieve an average rating of “2” to be considered competent to enroll in internship.

Supervisors are asked to review the evaluation form carefully. The form clearly shows the indicators on which students will be evaluated. University personnel will discuss these forms with the supervisors and respond to any questions they have. Please note that students are responsible for requesting experience in all activities reflected on the evaluation form.
INTERNERSHIP

Description of Internship

The internship is an arranged supervised experience with a broad range of school counseling functions including individual and group counseling, classroom guidance, advocacy, leadership, consultation, collaboration, and coordination. A school counselor provides supervision on-site. Either the school or the university may employ the on-site supervisor.

Internship is a total of 10 credits and at least 600 clock hours. Internship is typically completed as a year-long experience. Students work approximately 20 hours per week on site. Two hundred and forty hours of the 600 hours must be spent in direct services to students, defined as individual and group counseling, parent/teacher consultation, and developmental curriculum (i.e., classroom guidance or large group guidance). School counseling interns start their experience in late August, the same time that public schools begin, and follow the internship site's schedule for holidays and spring break to the end of the university semester, at which time all their hours must be complete for graduation. After graduation, they may volunteer to see the end of the school year, but supervision for counseling work cannot be guaranteed through the university as these students are now graduates.

School counselors-in-training are expected to counsel at least six students per week. Each semester of internship, school counselor trainees also are expected to conduct at least one or two psycho-educational groups that are designed to help students remove barriers to their learning (e.g., healthy personal choices group, study skills group, test-taking group, etc.). In addition, students are required to attend a three-hour class each week. The class provides opportunities to discuss the interns’ professional activities, monitor their progress, and learn new knowledge and skills. Discussion of strategies designed to improve student achievement, reviewing tapes of counseling sessions, role playing, case presentations, discussing consultation issues, evaluating school counseling program activities, addressing relevant legal and ethical issues, and sharing professional issues are examples of course activities.

Prerequisites courses for the internship include those for the practicum plus the successful completion (i.e. grade of at least "B") in practicum.
Standards and Performance Indicators for Internship

School counselors-in-training who are enrolled in school counseling internship also are expected to demonstrate progress toward achieving the CACREP Standards (2016). Both students and supervisors should review the CACREP performance indicators found in Appendix B 3. At the completion of internship, both on-site and university supervisors will be asked to complete rating scales found in Appendix B 5. Supervisors will input their ratings of the student’s skills directly into the data collection system for OSU, called TK20. These assessments are used to monitor the progress of counselor trainees and to improve the school counseling program.
Appendix A – Application for Approval as Site Supervisor
Please complete this form and submit for approval if you are interested in serving as a site supervisor.

Appendix B – Evaluation Forms

Appendix B 1: Student Self-Reflection Tape Review Form
This form is filled out by students when they submit a tape for review. You may elect to use this form when students submit tapes to you for review.

Appendix B 2: Supervisor’s Tape Critique Form
You may elect to use this form to provide the student with written feedback for the tapes you have heard.

Appendix B 3: CACREP Standards (2016) for School Counseling
All supervisors are asked to read these standards to understand what competencies students are working toward in practicum and are expected to complete in internship.

Appendix B 4: School Counseling Evaluation Rubric
All supervisors are asked to complete this evaluation instrument and discuss with the student twice. The first evaluation discussion between you and the student should take place in the middle of the field experience, and the second evaluation discussion should take place at the end. This form is used for both the practicum and internship experiences. This form will be the format of the data you will input into TK20 at the end of the practicum or internship.

Appendix B 5: Evaluation of Field Placement Site
The student will complete this form at the end of the field experience as a means of evaluating the site.

Appendix B 6: Evaluation Process within Supervision Inventory
The student will also complete this form at the end of the field experience as a means of evaluating the supervisor.

Appendix C: Supervision Resources

Write a brief session summary:

Intended Goals and how you monitor the student's progress toward reaching his/her goals:

Describe plans for further counseling/intervention with this student:

Identify the strengths you, as a counselor, demonstrated in this session:

Identify the areas in which you need to improve:
Supervisor’s Tape Critique Form: Rating Scale for Individual Counseling Skills

Name of Client _____________  Name of Counselor ______________  Date: ___________

Directions: Circle the number that best represents the skill level of the counselor-in-training: 5 (high) to 1 (low)

Counseling Criteria:

1.  Opening:
   Was opening unstructured, friendly, and relaxed?  Did the counselor discuss confidentiality?  Did the counselor provide structure for the session?

   5   4   3   2   1

   Remarks:

2.  Rapport:
   Did the counselor establish good rapport with counselee?  Was the tone of voice warm and respectful?

   5   4   3   2   1

   Remarks:

3.  Interview Responsibility:
   If not assumed by counselee, did counselor assume appropriate level of responsibility for the conduct of the counseling?  Did counselor or counselee take initiative?

   5   4   3   2   1

   Remarks:

4.  Interaction:
   Were the counselee and counselor really communicating in a meaningful manner?  Did counselor questions seem appropriate and intentional or conversational?  Was counselor listening carefully?

   5   4   3   2   1

   Remarks:

5.  Acceptance/Openness/Genuineness:
   Was the counselor accepting and permissive of counselee emotions, feelings, and expressed thoughts?  Did counselor seem genuine?

   5   4   3   2   1

   Remarks:

(continued on next page)
6. Use of Theoretical Approach:
Did the counselor use a theoretical approach (SFBC, choice theory,) to assist the student? If so, note which theory the counselor was using.

5 4 3 2 1
Remarks:

7. Goal Setting:
Did counselor appear to be helping student arrive at his/her own goals? Were the goals realistic? How does the counselor plan to monitor progress toward goals? How will the student know if he/she is accomplishing the goals that have been set.

5 4 3 2 1
Remarks:

8. Closing:
Was the closing initiated by the counselor? Was it done smoothly and warmly?

5 4 3 2 1
Remarks:

9. General Techniques: vocabulary level, use of silence, tone of voice, pacing, duration of interview
How well did the counselor conduct the interview?

5 4 3 2 1
Remarks

Appendix B 3

CACREP STANDARDS 2016
SCHOOL COUNSELING

SECTION 5: ENTRY-LEVEL SPECIALTY AREAS

G. SCHOOL COUNSELING
Students who are preparing to specialize as school counselors will demonstrate the professional knowledge and skills necessary to promote the academic, career, and personal/social development of all P–12 students through data-informed school counseling programs. Counselor education programs with a specialty area in school counseling must document where each of the lettered standards listed below is covered in the curriculum.

1. FOUNDATIONS
   a. history and development of school counseling
   b. models of school counseling programs
   c. models of P-12 comprehensive career development
   d. models of school-based collaboration and consultation
   e. assessments specific to P-12 education

2. CONTEXTUAL DIMENSIONS
   a. school counselor roles as leaders, advocates, and systems change agents in P-12 schools
   b. school counselor roles in consultation with families, P-12 and postsecondary school personnel, and community agencies
   c. school counselor roles in relation to college and career readiness
   d. school counselor roles in school leadership and multidisciplinary teams
   e. school counselor roles and responsibilities in relation to the school emergency management plans, and crises, disasters, and trauma
   f. competencies to advocate for school counseling roles
   g. characteristics, risk factors, and warning signs of students at risk for mental health and behavioral disorders
   h. common medications that affect learning, behavior, and mood in children and adolescents
   i. signs and symptoms of substance abuse in children and adolescents as well as the signs and symptoms of living in a home where substance use occurs
   j. qualities and styles of effective leadership in schools
   k. community resources and referral sources
   l. professional organizations, preparation standards, and credentials relevant to the practice of school counseling
   m. legislation and government policy relevant to school counseling
   n. legal and ethical considerations specific to school counseling
3. PRACTICE
   a. development of school counseling program mission statements and objectives
   b. design and evaluation of school counseling programs
   c. core curriculum design, lesson plan development, classroom management strategies, and differentiated instructional strategies
   d. interventions to promote academic development
   e. use of developmentally appropriate career counseling interventions and assessments
   f. techniques of personal/social counseling in school settings
   g. strategies to facilitate school and postsecondary transitions
   h. skills to critically examine the connections between social, familial, emotional, and behavior problems and academic achievement
   i. approaches to increase promotion and graduation rates
   j. interventions to promote college and career readiness
   k. strategies to promote equity in student achievement and college access
   l. techniques to foster collaboration and teamwork within schools
   m. strategies for implementing and coordinating peer intervention programs
   n. use of accountability data to inform decision making
   o. use of data to advocate for programs and students
Appendix B 4

SCHOOL COUNSELING EVALUATION RUBRIC (rev. 1/2017)

This evaluation consists of three parts: Professional Identity and Behavior, Professional Counseling Skills, and Professional School Counseling and Program Management Skills. The practicum counselor-in-training must achieve an overall rating of a Level 2 to pass practicum, and the internship counselor-in-training must achieve an overall rating of Level 3 to pass internship. Please note that counselors-in-training are responsible for obtaining and tracking their attainment of each behavior or experience listed in the rubric.

This rubric has been organized using BLOOM’S TAXONOMY (Revised, Anderson & Krathwohl, 2001), which outlines the shifts in thinking that learners experience as they progress from “novice” thinking to more “expert” thinking.

\[\text{Lowest: Remember} \rightarrow \text{Understand} \rightarrow \text{Apply} \rightarrow \text{Analyze} \rightarrow \text{Evaluate} \rightarrow \text{Create} \quad \text{Highest}\]

For the purposes of this rubric, (scale is consistent with Ohio School Counselor Evaluation System [OSCES]):

LEVEL 0 represents counselor-in-training behaviors that indicate that the student does not have access to, or chooses not to access, the information learned about the profession. He/she is not able to remember or chooses not to remember professionally relevant priorities.

LEVEL 1 represents counselor-in-training (CIT) behaviors that indicate the CIT does remember and understand professionally relevant priorities, but struggles to apply that knowledge and understanding.

LEVEL 2 indicates that the CIT is able to apply the knowledge and demonstrate understanding of professionally relevant priorities. This level is expected of successful practicum counselors-in-training.

LEVEL 3 represents CIT behaviors that indicates both application and analysis of professional situations, but is inconsistent in or unable to evaluate the resulting insights in order to create highly appropriate responses. This level is expected of successful internship counselors-in-training, and represents good performance as an entry level professional school counselor.

LEVEL 4 indicates that the CIT is consistently using “expert” thinking skills to evaluate professional situations and create professionally meaningful responses (i.e., behaviors and programs) that serve to enhance the school counseling program in particular and the whole school in general. This level is advanced and would be expected from practicing professionals with experience. It is presented here to describe exemplary CIT performance and to inspire further professional achievement.

Comments and suggestions for improvement are vital for the CIT’s growth. Please feel free to attach additional pages as needed.
## PART ONE: PROFESSIONAL IDENTITY AND BEHAVIOR

<table>
<thead>
<tr>
<th>Ability to deal with conflict (2F.5f; 5G.1d; 5G.3l)</th>
<th>LEVEL 0 Unacceptable</th>
<th>LEVEL 1 Ineffective (Below Average)</th>
<th>LEVEL 2 Developing (Acceptable with room for growth)</th>
<th>LEVEL 3 Skilled (Good level of proficiency consistently demonstrated)</th>
<th>LEVEL 4 Accomplished (High level of professional achievement consistently demonstrated)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rating:____</td>
<td>Unable or unwilling to consider others’ points of view. Shows no willingness to examine own role in conflict. Ignores supervisory advisement if not in agreement with own position.</td>
<td>Attempts but sometimes has difficulty grasping conflicting points of view. Examines own role in conflict when directed to do so. Responds to supervision in a conflict if offered. Participates in problem solving when directed.</td>
<td>Always willing and able to consider others’ points of views. Always willing to examine own role in a conflict. Open to supervision about own role in a conflict. Initiates problem solving efforts in conflicts.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Actively Welcoming of Diversity (2F.1e; 2F.2; 5G.3k)</td>
<td>Intolerant attitudes toward persons of diversity or other beliefs and values.</td>
<td>Accepting of diverse persons, beliefs, and values.</td>
<td>Celebrates diversity and works to cross boundaries, seeks exposure to new beliefs and values.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Rating:____</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Advocates for a Positive School Climate for all (2F.2h; 5G.2a)</td>
<td>Unaware of school climate.</td>
<td>Aware of school climate and able to advocate for improvement of school climate with prompting.</td>
<td>Sensitive to school climate issues and actively advocates for improvement of school climate issues under own initiative.</td>
<td></td>
<td></td>
</tr>

<td>students.</td>
<td>Does not attempt to collaborate with others.</td>
<td><strong>Any</strong> violation of ACA or ASCA ethics.</td>
<td>Displays little or no effort to flex own response to changing environmental demands. Intolerant of unforeseeable or necessary changes in established schedule or protocol.</td>
<td>Tasks are usually left undone.</td>
<td>Does not initiate any new programs or services. Must be prompted by others. Often misses deadlines. Often fails to meet minimal expectations in tasks and assignments.</td>
</tr>
<tr>
<td></td>
<td>Engaged in collaborative activities but with minimum allowable input. Accepts but rarely initiates compromise in collaborative activities. Concerned mainly with own part in collaborative activities.</td>
<td>Developing awareness of ethical issues in the school environment. Responsive to supervision regarding personal boundary confusion, or judgment that could possibly put client well-being at risk.</td>
<td>Flexes own response to changing environmental demands when directed to do so. Accepts necessary changes in established schedule or protocol, but without effort to understand the reason for them.</td>
<td>Tasks are done with prompting from others.</td>
<td>Initiates some activities, but without independence or autonomy. Meets minimal expectations of assigned work. Shows some creativity and initiative in work.</td>
</tr>
<tr>
<td>Actively seeks collaborative relationships to enhance the functioning of the school counseling program and the school as a whole. Actively works to reach consensus in collaborative activities. Willing to initiate compromise to reach group consensus.</td>
<td></td>
<td>Highly ethical behavior; awareness of codes of ethics and sensitive to ethical issues in the school environment. Ensures client safety and well-being.</td>
<td>Independently monitors the environment for changing demands and flexes own response accordingly. Attempts to understand need for change in established schedule or protocol. Accepts necessary changes in established schedule and attempts to discover the reason for them. No evident resentment to necessary changes.</td>
<td>Tasks are completed without prompting; student monitors own accomplishment of timelines.</td>
<td>Initiates new activities and brings energy and enthusiasm to tasks. Meets and exceeds all requirements for activities and work. Consistently displays creativity and initiative in work. Feels passion for the job of school counselor.</td>
</tr>
<tr>
<td>Displays little or no creativity or initiative in creating activities.</td>
<td>Aware of professional organizations, joins with prompting. Limited commitment to professional development. Attains credentials as part of process.</td>
<td>Committed to professional organizations. Demonstrated commitment to professional development. Proud of credentials.</td>
<td></td>
<td></td>
<td></td>

| Knows about Professional Standards (2F.1g; 5G.2l; 5G.2m; 5G.2n) Rating: ____ | Unaware and/or unconcerned about professional organizations, professional development, preparation standards, and credentialing. | Leadership (2F.1d; 5G.2a; 5G.2d; 5G.2j) Rating: 
| No leadership skills evident. | Accepts leadership when prompted by others. | Takes leadership role with tasks to motivate others. |
| Making use of feedback (2F.1k; 2F.1m; 5G.3n) Rating: ____ | Does not take ownership of problems that are the source of negative feedback. Discourages feedback through defensiveness and anger. Shows little or no evidence of incorporating feedback to change behavior. | Openness to new ideas (2F.1k; 2F.1m) Rating: ____ |
| Does not take ownership of problems that are the source of negative feedback. Discourages feedback through defensiveness and anger. Shows little or no evidence of incorporating feedback to change behavior. | Shows some defensiveness to critique through over-explanation of own actions – but without anger. Takes responsibility for making changes suggested in feedback. | Solicits others’ opinions and perspectives about own work. Invites constructive feedback and demonstrated interest in others’ perspective. Strong evidence of incorporating feedback to change own behavior. |
| Openness to the face of setbacks (2F.1k; 2F.1m) Rating: ____ | Gives up at first sign of any resistance. | Personal Responsibility (2F.1k; 2F.1m) Rating: ____ |
| Open to perspectives other than own. Accepts constructive criticism without defensiveness. Some evidence of incorporating feedback to change own behavior. | Persists and initiates additional effort to address setback. | Refuses to admit mistakes or examine own contribution to problems. Lies, minimizes or embellishes the truth to extricate self from problems. Consistently blames others for problems without self examination. | Examines own role in problems when informed of the need to do so. Accurate and honest in describing own and others roles in problems. Might blame initially, but is open to self-examination about own role in problems. | Monitors own level of responsibility in professional performance. Accepts own mistakes and responds to them as an opportunity for self-improvement. |
| Professional Presentation Rating: ____ | Language, attire, and attitudes are unprofessional and | Language, attire, and attitudes are acceptable for a professional in a school | Language, attire, and attitudes are highly desirable in a school |

<td>Collects and evaluates program data to assess the program.</td>
<td>Designs innovative ways to document program accomplishments and share data with constituent groups.</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Systemic Awareness (2F.2; 2F.3f; 2F.5h; 5G.3h) Rating:</strong></td>
<td>Does not see systemic issues that impede student progress.</td>
<td>Able to identify systemic issues, but is not sure what to do to address them.</td>
<td>Identifies community, environmental, &amp; institutional opportunities and barriers to students and acts to enhance opportunities and reduce barriers.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Community Awareness (2F.5k; 5G.2k) Rating: _____</td>
<td>Unaware of services or resources available for students and families.</td>
<td>Aware that there are services and resources in the community for students and families.</td>
<td>Able to promote services and resources in the community for students and families due to efforts to collect such information.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>-----------------------------------------------</td>
<td>--------------------------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Crisis Management Preparedness (2F.5k; 2F.5k; 2F.5m; 5G.2e) Rating:_____</td>
<td>Does not see need for school counselor involvement in crisis preparedness.</td>
<td>Understands the need for building crisis planning but does not act on that understanding.</td>
<td>Understands and participates in planning for building crises.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Engaging peers to promote student development (2F.3a; 2F.3b; 2F.3f; 5G.3m) Rating: Not observed ___</td>
<td>Does not engage peers to promote student development (peer mediation, peer mentoring, peer tutoring, etc.)</td>
<td>Engages peers in ways they can promote each other’s development</td>
<td>Seeks out ways to engage peers as support for student development</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Engaging families to promote student development (2F.3a; 2F.3b; 5G.2b) Rating: _____</td>
<td>Does not engage families of students to promote student development (parent programs, resources, etc.)</td>
<td>Engages parents, guardians, and families in ways they can promote student development (parent programs, parent libraries, etc.)</td>
<td>Seeks out ways to engage family as support for student development through programming, outreach, service, etc.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Engaging school community to promote student development (2F.3f; 2F.5k; 5G.2b) Rating: _____</td>

OVERALL RATING:

COMMENTS/ SUGGESTIONS FOR IMPROVEMENT (attach additional sheets if needed):
EVALUATION OF FIELD PLACEMENT SITE

Name: ________________________

As you complete your internship, you probably have many thoughts about your experiences. The faculty is interested in knowing how you perceived your experience and what can be done to make it even better. One important aspect of your internship is/are the site(s) in which you complete it. Please take a few minutes and reflect upon the advantages and disadvantages of each site.

Name of Site: ___________________   On-Site Supervisor: ___________________

Advantages or best aspects of the site:

Disadvantages or greatest challenges of the site:

Additional comments:

APPENDIX B 6

EVALUATION PROCESS WITHIN SUPERVISION INVENTORY

Indicate the extent to which you agree or disagree with each of the following statements. For each, circle the appropriate number on a 7-point scale, where 1= strongly disagree and 7= strongly agree.

1. The goals that my supervisor and I generated for my training seem important.
   1 2 3 4 5 6 7

2. My supervisor and I created goals that were easy for me to understand.
   1 2 3 4 5 6 7

3. The objectives that my supervisor and I created were specific.
   1 2 3 4 5 6 7

4. My supervisor and I created goals that were realistic.
   1 2 3 4 5 6 7

5. I think my supervisor would have been against my reshaping/changing my learning objectives over the course of our work together.
   1 2 3 4 5 6 7

6. My supervisor and I created goals that seemed too easy for me.
   1 2 3 4 5 6 7

7. My supervisor and I created objectives which were measurable.
   1 2 3 4 5 6 7

8. I felt uncertain as to what my most important goals were for this training experience.
   1 2 3 4 5 6 7

9. My training objectives were established early in our relationship.
   1 2 3 4 5 6 7

(continued on next page)
10. My supervisor and I never had a discussion about my objectives for my training experience.

1 2 3 4 5 6 7

11. My supervisor told me what s/he wanted me to learn from the experience without inquiring about what I hoped to learn.

1 2 3 4 5 6 7

12. Some of the goals that my supervisor and I established were not practical in light of the resources available at my site.

1 2 3 4 5 6 7

13. My supervisor and I set objectives that seemed practical given the opportunities available at my site.

1 2 3 4 5 6 7

14. My supervisor welcomed comments about his/her style as a supervisor.

1 2 3 4 5 6 7

15. The appraisal I received from my supervisor seemed impartial.

1 2 3 4 5 6 7

16. My supervisor’s comments about my work were understandable.

1 2 3 4 5 6 7

17. I didn’t receive information about how I was doing as a counselor until late in the semester.

1 2 3 4 5 6 7

18. I had a summative, formal evaluation of my work at the end of the semester.

1 2 3 4 5 6 7

19. My supervisor balanced her/his feedback between positive and negative statements.

1 2 3 4 5 6 7

(continued on next page)
20. The feedback that I received from my supervisor was based on direct observation of my work.

1 2 3 4 5 6 7

21. The feedback that I received was directly related to the goals we established.

1 2 3 4 5 6 7

Strengths of my supervisor:

My supervisor could improve on:
