

Ohio State Cooperating Teacher Survey Results

CAEP Accountability Measure #2: Satisfaction of Employers and Stakeholder Involvement

The Ohio State Cooperating Teacher survey is used to gather feedback from mentor teachers each semester about their experience working with Ohio State student teacher candidates in initial licensure programs. Agreement levels are measured on seven questions using a four-point Likert scale, where a 3.0 mean or higher indicates overall agreement. Two open-ended questions also permit mentors to provide qualitative feedback on strengths and areas of improvement for the programs to consider.
