Research

Each T & L doctoral student is required to complete a minimum of 9 semester hours of Research Methods coursework, but faculty advisors or Areas of Study may require more. Independent studies (EDUTL 7193) cannot be used to meet the research credit hour requirement. Students may choose a qualitative, quantitative, mixed methods focus, or other research orientation approved by their faculty advisor. However, students are strongly encouraged to take at least one course in the qualitative paradigm and one in the quantitative paradigm to ensure readiness to read research scholarship and meet potential future professional needs. EDUTL 8003 is highly recommended prior to beginning a research course sequence.

Professional Engagement

Each T&L doctoral student is expected to complete an **Annual Evaluation** of professional and academic progress with his/her faculty advisor. See the T&L Handbook for the process and expectations regarding student involvement in professional organizations, presentations, conferences, and publications.

Research Apprenticeship

The purpose of the Research Apprenticeship is to provide students with professional/practical experiences. Each T&L doctoral student must complete **a minimum of 6 hours** of EDUTL 8998. These hours are distinct from assistantship positions (i.e. GA, GTA, or GRA) hours.
