There is a significant need for qualified coaches for children and youth sports programs. The Institute for the Study of Youth Sports estimates that 40 million youth participate in sports annually. Over 4 million adults serve as volunteer coaches. It is not unusual for schools, community agencies, and religious groups to seek competent persons to coach their children. All of these organizations need assistance with the administration of their sport programs.

Thus, there is the need to develop competent coaches and administrators of these sports programs. Many students across campus express interest in coaching and coaching classes, and many students do coach while in college; however, they have little exposure to coaching education. Too often these “coaches” continue coaching patterns that are uninformed by advances in knowledge about quality coaching practices. They are also uninformed about the developmental and educational needs of those being coached.

The coaching minor is comprised of core courses and electives. Students who choose the minor focus on the coaching and administration of youth and adolescent sports and are exposed to the knowledge and content needed to coach or organize an effective sports program. The minor emphasizes theories and basics of coaching and administration of youth and adolescent sport programs. The minor requires 18 credit hours.

After an advisor in EHE Undergraduate Student Services has approved the Minor Program Form, please return it to your college of enrollment so it can be added to your program. No variations in the program are allowed.

Students preparing for a career in coaching are strongly encouraged to obtain CPR and First Aid Certification.
